11	Q. And then you said, you were a committee staffer	11	A. Yes.
12	and then a Committee Director.	12	Q. Where do you have an office in the Senate?
13	A. Uh-huh.	13	A. Yes.
14	Q. Was that for a particular committee, I assume?	14	Q. Where is your office located?
15	A. Initially, it was the Economic Development	15	A. It's located in front of the Senate Chamber
16	Committee. The name was changed at some point, it	16	adjacent to the Sergeant at Arms.
17	became the Senate Business and Commerce Committee.	17	Q. What are your duties as Senate Parliamentarian?
18	I should say, there were probably some	18	A. Generally, it is to advise the presiding

committee structure.

Q. And what's the benefit or -- what's the benefit of sending a bill to the Committee of the Whole with 31 members as opposed to a committee that has fewer

A. I think the benefit is that you have greater deliberation. It allows the Senate to all -- basically, 31 members would have equal rights of participation within the Committee of the Whole. And by "equal rights," I mean, equal rights to amend a bill in committee, equals rights to question witnesses, equal rights to debate within the informal confines of a

Q. And when you say that the Committee of the Whole process lends itself to greater deliberation, are you able to elaborate on that beyond what you have just described?

A. Well, when the Senate is in session, I think -you know, we have rules of debate. Things like, you
should always address the President. Committee of the
Whole is just -- it is an informal meeting of the Senate
where they can have full debate, question each other,
without having to worry about framing their questions

these actions are entered into the Senate Journal.

Q. When you say "a bill is given a number," what is the significance of the number that the bill is given?

A. Not really any significance, it is just a sequential numbering system for identifying bills.

Q. So is it the case that the first bill filed in a session would be given Bill No. 1, the next bill would be given No. 2 and so on?

A. Not necessarily. Sometimes we go out of order for the convenience of the members.

Q. Is it ever the case that certain low bill numbers are reserved?

A. Yes. We do reserve some bill numbers.

Traditionally, for example, the budget is considered very important and, also, we give it the designation of one and that is for the convenience of the members, they always know budget bill is Senate Bill 1.

House does the same. Theirs is House Bill 1 every time, almost every time, I should say.

Q. Have you ever heard of members camping out to file legislation?

A. Yes.

Q. And what does that refer to when members, what do you take that to mean when members camp out, what are

and conforming to the rules of debate on the Senate floor

The Committee of the Whole has been used for investigations, for other purposes, any time the committee -- the Senate, as a whole, determines informal debate in consideration would be beneficial.

Q. Can you walk me through the process of how a bill gets filed or introduced in the Senate.

A. Sure. A member of the Senate -- you want me to walk you through, administratively, what they would actually do?

Q. Yes, please.

A. Our process in the Senate is, once you have a piece of legislation, you get what we call "an orange back" where you -- it is stapled to the back of the bill on this orange back, has a place for the caption which is required by the rules that basically notifies the members in the public, generally, what the bill is about, a member would sign that legislation. The orange back has room on the back where -- when the bill goes through the process of the Senate, it might be stamped with where it was referred that actions that take place on the bill. But essentially, a member of the Senate or the staff would take this bill to the Calendar Clerk where it is given a number and at some point all of

you describing?

A. You know, I think some members think that a lower bill number gives them -- you know, I think they -- they think that it signals to maybe the membership and the public that their piece of legislation was first in idea, perhaps, or sometimes we get multiple pieces of legislation on the same subject and so some members think that if they have a lower bill number, that indicates to the Senate that, perhaps, they came up with the idea first. There are many members who don't think that, some -- and don't camp out.

Q. Does the bill number have any affect on when a bill gets considered by a committee?

A. Not at all.

Q. Does it have any affect on when a bill gets considered, if at all, by the entire Senate on the floor?

A. No.

Q. After a bill is filed, what's the next step in the legislative process, what happens to it? I think you said it -- it is filed with the Calendar Clerk; is that right?

A. Yes.

Q. What's the next step after that?

A. The next step under the rules is that, the

Is there generally a Blocker Bill in place each session? A. I would say, since the early 1950s, that for Regular Sessions, there is usually a bill at the top of the calendar, it can be passed. Sometimes the Blocker Bill changes. For special sessions, there are probably many instances where a blocker bill is not used. Q. Has the Blocker Bill has a Blocker Bill been used in all the Regular Sessions since you have been the Parliamentarian in the Senate? A. All of the Regular Sessions, yes. MR. HARRIS: Why don't we take a short break, if you don't mind. A. Sure. (Brief recess.) Q. (By Mr. Harris) We were talking before about the ability of the Lieutenant Governor to assign a bill to the Committee of the Whole as opposed to a regular	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	legislation if there was a tie in the Senate; is that right? A. That's right. Q. What rules govern the proceedings of the Committee of the Whole? A. Generally, there are rules in the Senate, I think, in Article XIII that generally govern the Committee of the Whole. We, also, have the Senate can determine rules for each sitting of the Committee of the Whole by resolution or in written format, however they choose to to do that. You have, you know, parliamentary law general parliamentary law and precedents would apply where applicable, as would Senate Rules. Q. Who writes the Senate Rules? A. The Senate. Q. I believe last session, I felt like there was 19 Q. Okay. What rule were you referring to? 20 somewhat of a conflict on referral and introduction and 20 A. Probably 5.12. Actually, I take that back. 21 how those terms were used. I made a recommendation to 21 Well, they would suspend 5.12 as 22 the members on that. Generally, I don't make many 22 prescribed by 5.13. 23 23 recommendations. Q. How does 5.13 differ from 5.11(a)? 24 Q. Do you recall any other recommendations to 24 MR. FREDERICK: Objection, vague, but you 25 change the rules that you have made as Parliamentarian? 25 may answer.

- A. 5.11 is the manner in which the Senate would create a special order. A special order is actually not part of the Regular Order of Business but is above the Regular Order of Business in precedence on the Senate's calendars.
- Q. (By Mr. Harris) And when you say, "it is a special order is above in precedence," what do you mean?
- A. Well, "special order" is a mechanism used to set certain time or precedent for a bill. So if a bill is set for special order, it comes out of the regular order and is put above the regular order.
- Q. How does that differ from what we were talking about before, when you said that the Senate could suspend the Regular Order of Business by a two-thirds vote and take a bill out of order?
- A. Well, I guess that's more of an instantaneous motion. In other words, that could be on their calendar and a member could move to take a bill up out of order. And a special order is typically used to designate -- you know, for example, it could be, you know, Mr. President, I move to set, you know, Senate bill blank as a special order for Friday.
- Q. What is the effect of making a bill a special order?
- A. The effect is that, under the Senate's

- A. Not immediately.
- Q. How could it be considered -- considered sooner than a bill that was required to proceed in the Regular Order of Business?
 - A. Yes. Unless you would suspend rules to take other bills out of order.
 - Q. What are the usual factors required to have a bill be considered as a special order?
 - A. Can you ask that again? I am sorry.
- Q. Sure. Putting aside Subsection D, what are the factors that would normally go into whether or not a bill would be considered as a special order?
- A. I think it is a matter of scheduling. So it is really up to the Senate to determine whether it would want to schedule the bill differently.
- Q. Do you know why there was a rule in 2009 allowing a bill relating to voter identification requirements reported favorably from the Committee of the Whole to be considered as a special order by a majority -- by a majority vote from members of the Senate?

MR. FREDERICK: I object on the grounds of legislative privilege and instruct you not to answer the question.

MR. HARRIS: Well, Mr. Frederick, at this

calendar, special orders are considered before the Regular Order of Business, they are considered first.

Q. And do you see on Page 24 in Rule 5.11(d), it says that, "Notwithstanding Subsection (a) of this rule, which we just read before, a bill or resolution relating to voter identification requirements reported favorably from the Committee of the Whole Senate may be set as a special order for a time at least 24 hours after the motion is adopted by a majority of the members of the Senate."

Do you see that?

- A. Yes.
- Q. What do you understand Rule 5.11(d) to mean, based on the text here?
- A. Well, I think, as you just read it, a bill with a subject of voter identification requirements reported from the Committee of the Whole could be set as a special order at least 24 hours ahead of time by majority vote of the members of the Senate.
- Q. And so does that mean that by a majority of the vote of the Senate, a bill relating to voter identification requirements reported favorably from the Committee of the Whole could be considered immediately as opposed to being considered in the Regular Order of Business?

point, the question is just, does the witness know. If she does know, we could get into a privilege debate. But I think the question "do you know," would not require her to reveal anything, let alone anything of a legislative privilege.

MR. FREDERICK: If you want to ask a question again, I am -- I think I understand.

Q. (By Mr. Harris) Sure. At this point, I am just asking for a yes or no answer to the question of: Do you know why the Senate incorporated in its 2009 rules, a rule allowing a bill, a resolution relating to voter identification requirements reported favorably from the Committee of the Whole to be set as a special order by a majority vote of the Senate?

MR. FREDERICK: I would caution you that the way the question is phrased seeks a question of whether or not you know, to the extent, you may answer. I would caution you not to reveal your thought process or any privileged matter relating to the actual reasons.

A. Yes.

Q. (By Mr. Harris) And what are the reasons that the Senate adopted this rule governing vote or identification requirements as part of the special order rule in 2009?

Q. Do you remember what the substance or effect of the rule was?

A. Generally, the language was similar to this language, 5.11(d) in that a bill, a particular type of bill could be made a special order if it had been reported from the Committee of the Whole. And I think similar language for at least 24 hours after the motion is adopted by majority of the Senate.

Q. And what type of legislation did the 1981 rule that you have been talking about refer to?

A. I don't remember their exact phrasing. I believe it was related to apportionment. But I don't remember the exact phrasing.

Q. Other than 5.11(d) concerning voter identification requirements and the 1981 rule that you have talked about relating to apportionment, are you aware of any other times when the Senate Rules have allowed a particular type of bill to be set as a special order by a vote of the majority of the members of the Senate?

A. I can't say it has never happened. I don't recall it happening in recent times.

Q. Since you weren't in the Senate in 1981, how is it that you're familiar with that rule that you were referring to before?

history. I am generally familiar with the rules over the course of the Senate's history but that doesn't mean I have performed an exhaustive analysis of whether that particular change in the way Senate special orders are

Q. (By Mr. Harris) But sitting here today, based on your familiarity with the Senate Rules over -- what teams to be at least a good period of time going back to at least 1981, the only instances you can think of in which there was an exception for a particular type of legislation, with respect to making that type of legislation a special order, was the 1981 example of apportionment and this 2009 rule dealing with voter ID; is that right?

A. I think that's an accurate decipher of that time period, yes.

Q. Did Lieutenant Governor play any role in creating this Rule 5.11(d) in 2009?

MR. FREDERICK: I am going to object on the basis of privilege. You may answer the specific question whether or not he played a specific role. But I caution you not to go beyond that into any privileged communications or privileged matters.

A. With regard -- well, as Presiding Officer, he would always be somewhat involved in the rules of the

Q. And would that research -- if I wanted to find out all the times that the Senate, let's say, in the last 50 years has created a special rule for a particular type of legislation, with respect to making that type of legislation a special order, would I just go back and read all the Senate rules for that time period or is there -- do you know of a more efficient way to answer that question?

A. Well, that's the most exact way to answer the question. You -- depending on the resources available, you could research -- you could look through rules resolutions, you know, for earlier times in the Senate, they are not always compiled and easy to search for, so we often do have to look at the rules or the journals.

Q. What sort of research did you do to look into the question of whether the Senate had previously created an exception for a particular type of legislation with respect to making that type of legislation a special order?

A. Well --

MR. FREDERICK: I am going to object as vague. I mean, you may answer.

A. I am not sure. That's why my answer earlier was a bit tentative in the earlier parts of the Senate

Senate

Q. (By Mr. Harris) As a general matter, now putting aside 5.11(d), what is the Lieutenant Governor's role with respect to the rules adopted by the Senate?

A. Well, his role in a parliamentary sense is that he is the Presiding Officer, so he would likely be aware of the Senate's work on the rules.

Q. Did you have any discussions with the Lieutenant Governor regarding the proposed Rule 5.11(d) prior to the time that it was voted on by the Senate?

A. Yes.

Q. Did you have any discussions with Senator Williams -- well, let me ask you this. Go back for a second.

How many times did you discuss the proposed Rule 5.11(d) with the Lieutenant Governor before the Senate voted on it?

A. I don't remember.

Q. When the Senate is in session, how frequently do you communicate or interact with the Lieutenant Governor?

A. Interact, daily when we are in session.

Q. And with respect to your discussions with the Lieutenant Governor, with respect to the proposed Rule 5.11(d), do you recall whether you had more than one

61 63 discussion with him? 1 A. You know, probably, you know -- again, I mean, 1 2 2 A. Are you asking about 2009? I probably had discussions with all of them at one point 3 Q. Prior to the time 9 MR. That's not to say that they haven't 9 like a group meeting, or do you have one-on-one contact 9 said that, but I can't recall the specific language on 10 10 with other members about the proposed Rule 5.11(d)? the Court's rulings on privilege. 11 11 A. Probably both. MR. HARRIS: Are you able to advise me 12 Q. And can you give me the names of which members 12 and/or your client with respect to which members of the 13 you recall discussing proposed Rule 5.11(d) with, 13 Senate that opposed voter identification have 14 particularly? 14 affirmatively asserted a privilege in this case? 15 A. Probably couldn't because I probably discussed 15 MR. FREDERICK: I think the more 16 it with all of them at one point or another. As 16 appropriate way to proceed is that, if you are confident 17 Parliamentarian, I would have a lot of discussions about 17 and can establish that a specific member has waived, I 18 the rules with the members. 18 will not oppose you're asking questions about 19 Q. - Q. And according to the -- to the title of the Bill 218 that we just looked at, as well as what's referenced here in the legislative history, do you agree that HB 218 was a bill relating to requiring a voter to present proof of identification?
 - A. Yes.

- Q. And looking at this legislative history, Exhibit 16, are you able to tell what the disposition of the Bill was in the -- on the House side, first?
 - A. Yes.
- Q. And what was the disposition of this HB 218 on the House side?
- A. It was finally passed, engrossed, and sent to the Senate.
- Q. And am I reading this correctly, that the Bill was reported engrossed from the house on April 24th, 2007?
 - A. Yes.
- Q. And then it looks like on April 25th, it was received from the House by the Senate; is that right?
 - A. Yes
- Q. And it looks like it was read on the Senate floor the next day, April 26, 2007?
- 24 A. Yes.
- Q. And there is an entry on 4-26-2006, it says,

A. What it means is that: When committees make recommendations to the full Senate, they -- they can -- there is really three ways that they can report a bill favorably. They can, basically, recommend a bill as introduced or received from the House with no changes. They can recommend a bill with changes by amendment, where they would make specific amendment recommendations. And then they can, also, make a recommendation based on a substitute.

And what a "substitute" is, is basically a new document, if you will, that may be very similar to the original bill, it may have substantive changes, it may have minor changes, but for parliamentary purposes, it is a new document for consideration. And so when it becomes before the Senate, that document would be considered in lieu of the original bill.

- Q. And so the fact that the Committee on State Affairs reported favorably -- reported the bill favorably as substituted, does that mean that the substitute version of the Bill passed out of the State Affairs Committee?
- A. I guess you could say that. The substitute is, at that point, the recommendation to the full Senate.
- Q. And I think you said earlier that, in order to recommend a bill to the full Senate would typically

- "Refer to State Affairs." And I guess the comment at the left has an "S" indicating this is relating to the Senate Chamber.
 - Do you understand that entry to mean that HB 218 was referred to the State Affairs Committee on the Senate side?
 - A. Yes.
 - Q. Were you at all involved in the decision to refer HB 218 to the State Affairs Committee in 2007?
 - A. Probably. I don't specifically recall it.
 - Q. And are you able to tell from this legislative history what happened to HB 218 once it was referred to the Committee on State Affairs? I guess, at this point, I confine your answer to what happened in the Bill in committee
 - A. Based on the actions on the list that you have put in front of me, the Bill would have been heard in committee, had -- had a public hearing, you know, witnesses would have had the opportunity to testify. It appears that there was a substitute for the Bill. And based on what's before me, we can't determine much more than that. They would have substituted the Bill and reported it favorably to the Senate.

Q. When you say "the Bill was substituted," what does that mean?

- 1 require a majority vote of the committee members.
 - A. Yes.
 - Q. And then I see that on May 1st, it says that, "a committee report was sent and distributed." What's a "committee report"?
 - A. A "committee report" is, basically, a report on the action of the committee. So on this type of bill, there would be a report on the front indicating to the Senate the action that the committee took on the bill. It would indicate what day the action was taken. It would indicate the vote on the bill. I think it indicates what form of recommendation, you know, whether it's a favorable recommendation, an unfavorable recommendation, also, the particular form of the recommendation, as I stated earlier, whether as introduced or received, amended or form substitute.

The committee report itself would, also, include a fiscal analysis, what we call "a fiscal" that is required by the rules, if -- if it is required, doesn't always. Also, a bill analysis, if required. And if any witnesses testified, that would be included and attached to the committee report and then, also, the actual recommendation in its form, either the substitute or amendments, or just the bill.

Q. You referred to a fiscal note. What's a

93 95 1 the Senate. It is a calendar required by the rules for "fiscal note"? 1 2 2 the members to give notice to the Senate of their A. Oh, boy. A "fiscal note" is an analysis of the 3 3 intention to suspend the Regular Order of Business to fiscal implications of a bill to the State that is take a bill up out of order if that -- if that is what 4 4 performed by the Legislative Budget Board, it is 5 5 advisory. And if it is required for a particular bill, their intention is and if that is what they are going to 6 it is attached to the bill. 6 7 7 Q. When is a fiscal note required? Q. And would it be correct that, at least during 8 A. You know, I may have to refer to the bills on 8 the 80th Session, Regular Session in 2007, that to 9 that. But for -- I would say, in general, for most 9 consider HB 218 out of order would have required a 10 10 vote -- excuse me, a two-thirds vote of those senators 11 Q. Well, what determines whether a fiscal note is 11 present and voting? 12 12 required? A. To consider HB 218 out of its regular calendar 13 13 A. We would look to the rules. order on the Senate Floor. 14 14 Q. Correct. Q. And you --15 15 A. And substance of the bill. You know, for A. Outside of a local calendar, yes, that's true, 16 example, I think the budget doesn't require a fiscal 16 we would have taken the two-thirds vote of the members 17 note so that's the only reason why I would say it is not 17 present and voting. 18 required on all of them, not the only reason but it is 18 Q. And from this history, it does not look like HB 19 just not always necessary for the body. 19 218 was placed on the local calendar; is that right? 20 Q. I see. And you referred to the Legislative 20 A. That's right. And I only qualify my answer 21 21 Budget Board. What's that? because bills are taken up out of regular order on the 22 A. The Legislative Budget Board is an agency of 22 local calendar without a suspension of the Regular Order of Business. But, yeah, you know --23 the Legislature that's created in statute. And it is 23 24 24 the Legislature's main resource for budgetary Q. Excuse me. 25 information, as an agency with employees but, also, it 25 A. -- this bill was not in the local calendar. 96 94 is governed by the leadership of the Legislature and 1 Q. Are there any limitations on what sorts of 1 2 members from the House and the Senate. 2 bills can be placed on the local calendar? 3 Q. Who appoints the members -- well, how does one 3 A. Yes. The biggest limitation is a bill that is 4 4 become a member of the Legislative Budget Board? contested in committee, it is not eligible for 5 5 A. I don't have the statute before me. But my consideration by the local calendar. 6 6 recollection is accurate and let's hope it is. The Q. And what does it mean for a bill to be 7 7 Lieutenant Governor is a member, the Speaker of the contested in committee? 8 House is a member. I am going to say that there is a 8 A. That means it -- if reported favorably, it 9 9 total of five representatives, if you will, from each would have received a "no" vote from a member of the 10 10 chamber of the House and the Senate and that's committee. 11 Q. Am I correct that it looks like from this probably -- that's including the Lieutenant Governor and 11 12 the Speaker. I think that some of the positions on the 12 legislative history that on May 15th, 2007, there was a 13 Legislative Board are, for example, I think it is 13 vote taken to suspend the Regular Order of Business with 14 standard that the Chair of Senate Finance is 14 respect to HB 218? 15 automatically on the Legislative Budget Board. And I 15 A. Yes. 16 think that the Lieutenant Governor makes the other 16 Q. Actually, I want to ask you one other thing 17 17 before we talk about the vote to suspend the regular appointments for the Senate. 18 Q. Going back to the bill history of HB 218 that 18 order.

we were looking at. I see an entry that says that, on

The "Intent Calendar" is a calendar used

May 2nd, 2007, the Bill was placed on the Intent

during a Regular Session of the Senate, of the

Legislature and it is used by a Senate, it is only in

Calendar. What's the "Intent Calendar"?

A. You're looking at of May 2nd.

It looks like on May 3rd, 2007, there was

When you have a House Bill in the Senate,

a co-sponsor of the bill authorized. What does that

A. Co-sponsor authorized. Generally, for

legislation introduced -- well, this is a House Bill.

generally, there is what I would call a lead sponsor

from the Senate, so in legislative terms, we -- authors are considered bills -- authors of bills for bills in their originating chamber. So the author of HB 218 would have been someone from the House of Representatives. When that legislation comes over from the House, you know, a senator would need to move that process forward, and so he would sponsor the bill. So there is usually a lead sponsor for a bill.

We, also, permit co-sponsors, and that's usually done in writing, I believe you have to have permission from the main sponsor to be able to do that and it is usually, I think we have, what we call "green cards" that the members would sign and that would indicate a member's major support of a bill through their sponsorship.

Q. And turning back to the legislative history.

Am I correct that this legislative history for HB 218 reflects that the motion to suspend the Regular Order of Business failed to receive the required vote on May 15th, 2007?

- A. I don't think you can tell that from this list
- Q. Do you see the entry on May 15, 2007, I think it is the third to last entry that, "The motion to suspend" --

- Q. Sure. Let's say prior to the time that Senator Fraser introduced voter identification related bill in 2009, did you have any discussions with Senator Fraser about either the substance of the bill or the procedure that would be used to consider the bill?
- A. I don't recall any conversations about the substance. As to the procedures, probably I did.
- Q. Did you ever discuss the substance of legislation with Lieutenant Governor Dewhurst as a general matter?
 - A. Yes, I think substance does come up.
- Q. Do you recall discussing the substance of any voter identification related bills with Lieutenant Governor Dewhurst in the 2009 Regular Session?

MR. FREDERICK: Just caution you not to reveal the actual substance of any conversation.

A. Uh-huh.

MR. FREDERICK: But subject to that instruction, you may answer.

A. You know, I don't recall specific conversations about the substance. It's possible from a parliamentary perspective that we would have had a conversation about an amendment or something on the bill. But in general, I don't believe I had any conversations with him about the substance of the legislation.

A. Oh.

- Q. -- "regular order fails"?
- A. Yes. I am sorry, I just didn't even see that.
- Q. Oh, no problem at all. Does that mean that the -- that the motion to suspend the regular order failed to receive the required vote?
 - A. Yes. That would mean that it failed.
- Q. And in looking at the remainder of this legislative history, are you able to tell what the ultimate disposition of HB 218 in the Senate was?
- A. Appears that it wasn't taken up out of the regular order or taken up at all.
- Q. We have already talked about 2009 a bit. And I think you already testified that you remember a bill being introduced in the Senate with respect to voter identification requirements in 2009; is that right?
 - A. Yes.
- Q. And I think you stated that the bill you remembered being introduced in 2009 was sponsored by Senator Fraser; is that right?
- A. Yes. Authored, yes.
- Q. Oh, excuse me, authored.

Did you have any discussions with Senator Fraser about voter identification legislation in 2009?

A. Could you be more specific?

 Q. This document has previously been marked as League Exhibit 10.

(Exhibit No. 10 previously marked.)

- Q. And Ms. Davis, please take as much time as you need to look over the document.
 - A. Okay.
- Q. And the document you're looking at appears to be a copy of at least one version of SB 362.

Do you agree with that?

- A. Yes.
- Q. And are you able to tell which legislative session this bill was considered during?
- A. Been considered during the 2009 Legislative Session
- Q. And is this the Bill you were referring to earlier when you said you remembered Senator Fraser offering a voter identification bill in the 2009 Regular Session.
 - A. Yes. This would be a version of the bill.
- Q. This document has previously been marked as League Exhibit 11.

(Exhibit No. 11 previously marked.)

- Q. And Ms. Davis, please take a moment or as much time as you need to look over the document.

18	A. Yes.	18	A. Yes. It is related to chubbing.
19	Q. Right?	19	Q. And what is "chubbing"?
20	And then it looks like there was a point	20	A. I think, as I understand chubbing, it would be

15	of the Senate.	15	any understanding of what the "major state calendar" is?
16	Q. And then skipping ahead a bit. It looks like	16	A. More or less, but I really wouldn't be able to
17	on March 18, 2009, the Bill was read for a third time.	17	answer very specific questions about it.
18	Do you see that entry?	18	Q. That's fine. Can you just briefly tell me what
19	A. For a third time. Yes.	19	you do understand it to mean?

And under Rule 5.11(d) of the 2011 Senate Rules that we looked at previously, is it correct to set SB 14 as a special order, that would have required a vote of the majority of the members of the Senate? A. Yes. Q. And what was the effect or the significance of designating SB 14 as a special order? A. I am not sure it had any affect. The significance would have been to alert the members to when the Bill would be taken up by the Senate. Q. Did designating SB 14 as a special order enable the Senate to consider SB 14 out of the Regular Order of Business? A. No, not really. Q. Then why would SB 14 be designated as a special order?

So it looks like a public hearing was scheduled on the Bill on January 24th, 2011, and I take it that would have been in the Committee of the Whole; is that right? A. Yes. Q. Would it have been possible to have a public hearing on the Bill in the Committee of the Whole on January 24th, 2011, had Governor Perry not designated SB 14 as an emergency item? A. No. It would not have been possible for the committee to consider a bill within the first 30 days without the Governor either declaring it an emergency or the Senate suspending the constitutional order of business. Q. What vote would be required to suspend the constitutional order of business? A. It's a four-fifths vote of the members. Q. Q. How about in Regular Session?

Are you aware of any other times where a bill passed in the first two weeks of a Regular Session?

A. I am sure it has happened. I don't recall anything specific. I am -- you know, I am sure it has happened before with emergencies during a Regular Session that would be a likely result.

- Q. But sitting here today, you don't recall any particular bills that passed within the first two weeks?
 - A. Nothing specific.

MR. HARRIS: At this time, the Texas
League has no further questions. We would reserve the
right to reopen the deposition subject to potential
motions concerning some of the privilege issues and
would, otherwise, turn our time over to the Department
of Justice and the Attorney General for any questions
that the Attorney General may have.

EXAMINATION

BY MS. BERKOWER:

Q. Good afternoon, Ms. Davis.

My name is Risa Berkower, to refresh your memory, and I represent the Attorney General Eric Holder in this case.

So I will be asking you some questions now. I think at the beginning of the day, Mr. Harris

Parliamentarian. And I am going to focus on your time as Parliamentarian. If I ask a question that asks for a question outside of the time you served as Parliamentarian, I will specify that, okay?

- A. Okay.
- Q. Could you, as a general matter, explain the role and duties of the Parliamentarian in the Senate.

MR. FREDERICK: That's asked and answered. You may answer.

- A. Generally, the Parliamentarian is a or Senate officer is responsible for advising the presiding officer and the members of the Senate on the rules and procedures of the Senate.
- Q. (By Ms. Berkower) And when you say, "rules and procedures," is the advice that you -- how do you give advice, is it requested of you or do you volunteer it yourself?
 - A. Probably a lot of both on a day-to-day basis.
- Q. What are the circumstances in which you volunteer advice on rules of procedure, like, on your own initiative?

A. You know, on a day-to-day basis in the Senate, I prepare -- well, I sit next to the presiding officer, and I prepare items for consideration. For example, you know, I might -- I prepare a script for the opening of

went over some ground rules with you. And I will just go over a few of mine as well just be clear.

I will do my best to ask you clear questions. But if you don't understand a question, will you let me know?

A. Yes.

Q. And I may use the terms "voter ID" and "voter ID" interchangeably during the deposition but I think you would interpret the term broadly to mean a requirement that a voter presents a form of identification, whether it has a photo or otherwise, when voting in person before being permitted to vote by regular ballot.

Does that make sense?

- A. Yes.
- Q. And if I refer to "minority voters," I mean voters who are non-white or non-Anglo, does that make sense?
 - A. Yes.
- Q. So again, if you have any questions about anything that I say, I would like you to interject; is that alright?
 - A. Yes.
- Q. So I think you have been asked a lot of questions about the duties that you have as Senate

- the Senate depending on what we are doing -- to make
- 2 sure we follow the rules, it would include an
- 3 introduction of the Pastor for the day. If there is
- 4 someone who is absent and has requested to be excused, I
- 5 would have a motion prepared for the presiding officer
- 6 to read. Sometimes these are motions in writing,
- 7 usually. Or I would have -- I would help cue for the 8 providing officer on various requests from the
- providing officer on various requests from the
 membership to be recognized for introduction of guests,
- ceremonial resolutions, memorial resolutions,
 - announcements. And that's just within the beginning of

the business of the Senate.

When we have moved on to the actual calendar, my job is to coordinate when bills are actually taken up, the timing to make sure that they are in order for the debate that would require me to order, review amendments, you know, kind of just, you know, things like, you know, if a member is ready to be recognized on a certain bill, making sure that the members on the floor and that any members who have filed amendments are available. And I am very heavily involved in when bills are taken up, depending on our schedule, our, you know, perhaps the intentions of how long we are going to be there. So I -- I would say the large part of my job is coordinating the actual business

149 151 1 not in session, as the Parliamentarian? of the Senate while we are in session. 1 2 2 A. Do you mean when we are outside of a Regular Q. So is it fair to say that you -- you ensure 3 3 that the Senate's business is conducted according to the Session --4 4 Q. When -rules of the Senate on a day-to-day basis or you provide 5 5 A. -- or just day-to-day? 6 A. Yes. I provide advice and help accommodate 6 Q. I guess when you're outside a Regular Session, 7 7 that. what -- just a quick summary of what you do when the 8 Q. And then there are, also, instances -- that's 8 Legislature is not meeting. 9 when you voluntarily give advice on the rules, is that 9 A. Okay. I still answer questions. Probably more 10 10 of my work comes from committees that are meeting accurate? 11 11 throughout the interim. I would give advice on how they A. Yes. That's accurate because times motions 12 12 might post for hearing. Sometimes I would be asked aren't in order at particular times of the day, things 13 13 of that nature, and I would, you know, to the extent specifics about how to post. There is a large number of 14 questions that can come into play with committees that a member wants to do something at certain time, I 14 15 15 would voluntarily say, we cannot do that at this time, meeting during the interim and outside of the 16 16 we can take this up later; or I would, you know, legislative session. 17 17 coordinate with the member and the presiding officer Aside from assisting staff and members 18 when we would assume certain activities for the Senate. 18 outside of the session, what I would do is perform a lot 19 Q. And then there are, also, times when people ask 19 of research in anticipation of an upcoming session and 20 your advice on the rules, is that accurate? 20 generally prepare for anything that I think might come 21 21 A. Yes. before the body. 22 Q. When are those times, just generally? 22 Q. How do you know what areas to research that 23 MR. FREDERICK: Object to vague. You may 23 might become of interest during the session? 24 24 A. I -- you know, sometimes I -- you can tell just answer. 25 25 by what could happen. You know, a good example of that Q. (By Ms. Berkower) Do you want me to be more 150 152 is, we have a potential vacancy in an office. You know, 1 specific? 1 2 A. Yes. I think that would be helpful. 2 I would research how that vacancy might be filled and 3 3 Q. Okay. When you're in session, do members of sort of anticipate what the Senate might need from me 4 the Senate ask your advice on rules? 4 and what they might need to conduct their business. 5 A. Yes. 5 Q. Do you ever research potential rule changes for 6 Q. When you're not -- when you're not meeting, 6 future sessions? 7 7 when the Senate is not in session, do the members ask A. Yes. Sometimes, I mean, you know, I have 8 your advice on rules? 8 certainly been asked questions about possible changes 9 A. Yes. 9 and, you know, sometimes I think after you have gone 10 10 Q. Does anyone else other than members of the through a session, things come up that were 11 Senate ask your advice on rules? 11 unanticipated and I might research those questions 12 A. Yes. 12 further and they sometimes may or may not turn into 13 Q. Who else asks your advice on rules? 13 rules changes. 14 A. The staff for the members in the Senate, 14 Q. I think you had discussed a rule change with 15 committee staff, in particular, staffers for senators, 15 Mr. Harris earlier, Rule 5.11(d), which was changed in 16 sometimes House members. Also, most -- the presiding 16 2009, do you remember testifying about that? 17 17 officer would ask for my advice. Sometimes members of A. Yes. 18 18 Q. Did you conduct any research on that rule the public would ask. 19 Q. Are you allowed to give members of the public 19 change prior to its institution? 20 2.0 advice on the rules? A. Prior to the time it was adopted by the Senate? 21 A. Yes. I think, general advice, I think it is 21 Q. Yes.

Q. Did you conduct any research before it was

Q. Were you asked to conduct that research?

- A. Some of it, yes. And some of it, I would have done on my own anyways.
- Q. Why -- what do you mean, you would have done it on your own anyways?
- A. You know, it is my job to know the rules and how they work and so I regularly research a lot to be prepared for a lot of different situations, and so I might not have specifically researched that provision but I would have done a lot of research about and have done a lot of research about special orders and, certainly, previous rules of the Senate.
 - Q. Who asked you to conduct the research?

MR. FREDERICK: I will object on the basis of privilege. We have already established what the subject matter of the research would be, so this would be calling for the substance of request Parliamentarian about a legislative act.

I am instructing you not to answer on the basis of privilege.

MS. BERKOWER: Can I ask you a question about that, Matt?

MR. FREDERICK: Of course.

24 MS. BERKOWER: I think she said she had 25 conducted research on special orders. So can I ask her then provides that the Lieutenant Governor appoint the Parliamentarian

The Lieutenant Governor makes a decision as to who the Parliamentarian would be and indicates that to the Senate and then the Senate adopts his appointment in a resolution making the Senate officer. I take an oath, along with the other offices on the Senate Floor. So I think because of my appointment by the Lieutenant Governor and because his role of the presiding officer, in large part, it is my job to advise him on the rules of procedure, particularly, given his authority under the Senate rules to decide questions of order.

- Q. Is there more you wanted to add?
- A. I don't think so, on a day-to-day basis, that's what I do is advise the presiding officer and the members of the Senate.
- Q. Is it the usual case that the Parliamentarian will retain that position longer than one legislative session?
 - A. I think in recent practice, it is.
- Q. Is it the usual practice that a Parliamentarian will retain the position after a new lieutenant governor comes in?
 - A. I think the recent practice is that we have had

who asked her to conduct research on special orders?

MR. FREDERICK: I thought the question was whether she conducted research in connection with Rule 5.11(d).

MS. BERKOWER: I did ask her that, she said -- I think she said she did research. And then she said -- I asked what the nature of that research was, I thought she said it was on special orders generally. If you want, I can just drop it. But I didn't think it was as specific as I think maybe you thought it was.

MR. FREDERICK: I think -- yeah. I mean, I think because of -- because of the predicate questions, I think identifying who made the request would have the effect of reviewing privileged communication.

Q. Okay. And can I ask you -- well, actually, I will just move on from there.

Can you explain the relationship, as a general matter, of the Parliamentarian in the Senate with Lieutenant Governor?

A. As a general matter -- matter, the
Parliamentarian is a Senate Officer. I am designated in
what's called "the Caucus Resolution" for the Senate. I
am designated as an Office along with the other
officers. The Senate names, the other officers, and

parliamentarians work for multiple lieutenant governors.

Q. And you said that you provide advice. To be clear, is that purely procedural advice?

A. I think -- I don't know if I would use the word "purely," I am not sure what you mean. But I think, in general, it is procedural advice.

Q. Does the procedural advice ever impact -- have a subsequent impact on a bill?

MR. FREDERICK: Objection, vague. Objection, calls for speculation.

You may answer.

- A. I -- I think there can be substantive impacts based on parliamentary rulings that the presiding officer would make.
- Q. What types of rulings would those be, where that impact occurs?

MR. FREDERICK: Objection, vague.

You may answer.

- A. An example would be germaneness might affect the actual bill, based on parliamentary standards.
 - Q. (By Ms. Berkower) What is "germaneness"?
- A. "Germaneness" is a requirement in the Senate Rules that the bills be germane to the subject matter of the bill.
 - Q. So is it about the -- would it be similar to

157 159 1 Q. Does the -- does the Lieutenant Governor, as a 1 like a relevancy requirement? 2 2 A. I am not sure what you would mean by "relevancy general matter, take the advice of a Parliamentarian? 3 3 MR. FREDERICK: Objection, vague. 4 4 Q. Okay. What's a definite -- what's the You may answer. 5 5 definition of "germane"? A. Probably, yes. 6 A. I mean, I think we can read the rule. Would Q. (By Ms. Berkower) I think you said a few 6 7 7 you like for me to read the rule to you? minutes ago that you were heavily involved in when bills 8 Q. Sure. Do you have it, the 2011 rules? 8 are taken up. Does that mean when they are taken up for 9 MR. FREDERICK: I think we have all --9 10 Q. (By Ms. Berkower) I have the whole 2011 rule. 10 A. Yes. When they are laid out for consideration 11 Do you know which one it is off the top of 11 in the Senate. 12 12 Q. What is your involvement in that when bills are your head? 13 A. It is 715 and it would be the same in 209. 13 taken up for -- or laid out for a vote? 14 14 A. You know, sometimes it is very significant and 15 A. So Senate Rule 715 reads: "No motion or 15 sometimes it is not that significant. 16 16 proposition on a subject different from that under You know, just depends on the time of the 17 17 consideration shall be admitted under color of amendment session as to how much work that is. It's -- for 18 or as a substitute for a motion or proposition under 18 example, if the Senate is considering, you know, 40 19 debate." 19 bills during the day, I would probably be -- I am very 20 Q. And that's one of the areas where you have made 20 heavily involved in determining when those bills would 21 21 rulings that you feel may have had a substantive impact be brought up and when they are ready for consideration. 22 22 Q. Well, what factors make a bill ready for 23 A. Where I would have provided the Lieutenant 23 consideration? 24 Governor or the Presiding Officer the time with advice 24 A. Well, aside from their procedural stance as to 25 as to whether an amendment to a Bill is germane or not 25 whether they are eligible for consideration on a 158 160 germane and whether their decision would affect a bill, 1 day-to-day basis, factors would be, such as, if the 1 2 this would be the case. 2 author is present or available when he is ready, if he 3 3 Q. And I guess that's a good point. You advise has his notes ready, if there are amendments, if those 4 4 the Lieutenant Governor. You don't make rulings amendments are in order and I have time to order them or 5 5 yourself, is that accurate? prepare them and be ready. Sometimes amendments are 6 6 submitted that are not properly drafted and would be 7 Q. Are any of the -- is any of the advice that you 7 confusing for the membership. So I would delay 8 consideration of a bill at that point until we have been provide to the Lieutenant Governor publicly available? 8 9 9 A. No, I don't think it is. able to work with the author of the amendment and, 10 10 perhaps, even the author of a bill in getting the bill Q. Maybe I should have been more specific. I know 11 the House Parliamentarian sometimes publishes, or I was 11 ready for consideration. This is really, largely, 12 told that yesterday by the other Ms. Davis, that there 12 logistical. 13 are some ruling papers that the House Parliamentarian 13 Q. Is the Parliamentarian and the Senate averse 14 may issue from time to time, is that something that 14 with the development of legislation? 15 happens in the Senate as well? 15 MR. Q. I think this was previously Exhibit 80 in

2.0

another deposition.

(Exhibit No. 80 previously marked.)

- Q. Did you have a chance to review it?
- A. Yes, I did.
- Q. Did this refresh your memory as to Ms. --

Senator Van de Putte's notice given about that hearing?

- A Yes
- Q. Who makes the decision about when to give notice for meetings of the Committee of the Whole?

A. I think giving notice for a hearing for the Committee of the Whole is a little bit difficult because, unlike a regular committee, the chairman of the committee can't just decide that the committee is going to meet at certain time. The Committee of the Whole process requires that the Senate itself resolve in the Committee of the Whole, it is the only way to actually be convened. So it would be by a vote of the Senate. So to the extent that notice is provided in the public of a hearing, it takes someone and likely, in this case, the Lieutenant Governor had made the decision that Senator Duncan would be appointed the Chair of the committee. So I think Senator Duncan, in consultation

made that decision.

Q. Do you see the -- in the second paragraph, Senator Van de Putte says that, the Lieutenant Governor waited until very late in the day Thursday to deliver a letter to senators, literally slipping it under most office doors after hours, giving notice of the Committee of the Whole hearing.

Do you see that portion?

- A. Yes
- Q. Do you know if that's, in fact, how notice was delivered to some senators?

A. Well, I think that letter was a -- a letter from the Lieutenant Governor indicating his intention to appoint Senator Duncan as Chair of the Committee of the Whole. I don't remember if it -- how much more detail it gave about when the public hearing would be had. It wouldn't have served as official notice. I think, at that point, it would have been more of a courtesy notice in an attempt to get the information to members as quickly as possible.

Q. Where would the official notice have come from?

A. Well, again, Committee of the Whole has to choose to resolve itself, so all the Lieutenant Governor at this point can do is give an indication to members that, if they so choose to convene the Committee of the

Tuesday. And pursuant to that plan, which is still 210

with the Lieutenant Governor, had anticipated and

decided that the committee would meet on Monday and

- subject to Senate approval, because only the Committee of the Whole can convene through a Senate action, Senator Duncan, at that point, made the decision when it would happen. In terms of how it was actually posted, I don't remember what we would have put in the posting exactly.
 - Q. So to be clear, was it a notice that the Senate would meet to resolve itself into the Committee of the Whole?
 - A. Yes. But, no. Well, the Senate wouldn't have had to give anyone notice to that, but to have a public hearing --
 - Q. Uh-huh.
 - A. -- the Senate would want to have the participation of a lot of people. And so we would have -- we -- the Senate availed itself of its regular committee posting mechanism to get the notice out to the public that there would be a hearing on the bill and the Committee of the Whole on Tuesday, on that Tuesday.
 - Q. And based on what you just explained, is it accurate to say that the scheduling of that was Senator Duncan and Lieutenant Governor Dewhurst made that decision?
 - A. Well, I -- yes. You know, it would have been in -- probably in consultation -- yes, they would have

- Whole, he will appoint a certain person, that's what the rules allow. And as leadership of the Senate and with -- in consultation with Senator Duncan, they, of course, had planned when the best time for the Senate -- you know, we would have to take into consideration when the Senate was coming back in, things like that. So you would have logistical issues. There is not a requirement in the rules for any kind of notice to be given because the members choose to resolve themselves.
- So the Lieutenant Governor issued a letter out of courtesy to indicate to the Senate what his thinking on the timing of the Committee of the Whole was, even though it is their decision. He issued the letter to give them the notice as soon as he could. And I believe the Governor had made a declaration of an emergency for voter ID that day, so that was very quick notice. And probably we weren't able to finalize a posting of the official sort that we might do for -- that we would do for public hearing until, you know, the next morning. So I think that was an attempt by the Lieutenant Governor to communicate information earlier.
- Q. I see. In prior years, when the Committee of the Whole -- when this type of committee -- when this type of procedural -- well, in prior -- you said the Lieutenant Governor sort of had -- the rules don't

	213
1	specifically provide for a committee hearing or
2	procedures to hold the committee hearing, they have to
3	resolve themselves. And the Lieutenant Governor, is it
4	fair to say, he plays a role in the timing of that

6	will withdraw that.
7	I guess what I am trying to ask, in prior
8	years, do you know if the Lieutenant Governor gave more

- sort. I have a recollection of a letter, and I don't remember if it was from the Lieutenant Governor, I think it was. It is possible that it was from Senator Duncan, I just -- I remember a letter.
- Q. Do you remember if there was more notice provided by that letter than by the letter referenced in this exhibit?
- A. For the public hearing or for the initial meeting or either, I guess.
 - Q. Either.

- A. I don't remember how much time.
 - Q. Okay. Now, turning your attention back to exhibit, I think it was 15, the bill history for Senate Bill 14.

- Bill 14 as expressed in the public record?
 - A. Yes.
- Q. The other bills that you saw passed in similarly short time span, do you recall if there was opposition on the public record to those bills?

MR. FREDERICK: Objection, vague.

You may answer.

- A. There could have been. "Opposition" is a fairly broad word, I think.
- Q. (By Ms. Berkower) Well, do you recall, was this bill passed solely on party lines?
 - A. Yes, I think it was.
- Q. Do you recall any other bill that was passed in this short of a time span that was passed purely on a party line vote?
- A. It is possible. I don't always -- I recall this one because I was here and it was recent but I wouldn't always look at votes in the journals with an eye for what the party breakdown was, so I don't think I can remember anything.
- Q. Okay. In the time -- and you were present, you said, I think earlier, for the debate of all of the bills that Mr. Harris raised with you today, when they were debated in the Senate, is that accurate?
 - A. Yes.

- A. Uh-huh.
 - Q. No.
 - A. Oh, the bill history for Bill 14.
- Q. Yes. Oh, it is this one, 17.
 - A. Okay.
 - Q. There you go.

From the first reading -- well, how many days -- based on this exhibit, can you tell how many days there were between the date on which Senate Bill 14 was filed and the date in which it passed the Senate?

- A. I think earlier, we had said for the record that that was 14 days and it appears to be, based on Adam's math and my math, it would be 14 days.
- Q. And how many days between when it was read for the first time and when it was passed?
- A. Two days.
- Q. In your experience as Parliamentarian, how frequently is a bill passed in that short of a time span?
- A. I would say it is not frequent but it certainly has happened enough times for me to remember that it's been a lot more than one time. I mean, I have seen bills passed in 45 minutes from start to finish. So, it is not frequent but it certainly occurred quite a bit.

Q. Do you recall if there was opposition to Senate

- Q. You said you don't really remember much of the substance of those debates, correct?
- A. That's true. I am frequently -- I am present for the debates. I have to pay attention to make sure that their discussions are germane but I am not often engaged in listening to their arguments.
- Q. Do you recall anyone expressing, as part of the public record, that -- well, before -- let me back up a second.

Do you remember what the purpose of SB 14 was, as expressed in the public record?

- A. I don't think I can do it any more justice than what they have done in the record. I mean, I -- I can read you the caption, that's their purpose, but I can't do any justice to what their arguments or their state of purposes were.
- Q. Do you recall if during the time that you were present for these public debates, did you ever hear anyone express that part of the purpose for these bills was to prevent non-citizens from voting?
- A. If I was listening and I heard that, I would remember, and I don't remember any of those statements being made.
- Q. Okay. And you said earlier today that you were born abroad; is that correct?

know that it would be exactly the same, but they both would have an attorney-client relationship, I am confident of that.

MS. BERKOWER: Are you confident that their interests are aligned, to the extent that cc'ing Doug Davis would not waive any privilege she had with Mr. Hanna.

MR. FREDERICK: Yes.

MS. BERKOWER: And are you asserting, also, that the disclosure of this document, I mean, I think we all agree that legislative privilege and attorney-client privilege are different in terms of waiver. And while someone else can't waive your legislative privilege for you, someone else can waive your attorney-client privilege for you. So to the extent that this was disclosed, you're still asserting that attorney-client privilege covers it now that it's been disclosed.

MR. FREDERICK: Yeah. I mean, you know, I am not -- at this time, I am not prepared or willing to debate the specifics of waiver. But this is subject to legislative privilege and attorney-client privilege. It has not been produced by the State in this litigation. And to my knowledge, neither of the clients, nor the holders of the legislative privilege have waived that

attorney-client privilege is being asserted of this document, is it fair to say today is, to your knowledge, is the first day to which it is being asserted?

MR. FREDERICK: Actually, it is probably not. I can't say for sure this is the first day it is being asserted. It is entirely possible it was asserted previously. And I understand your questions about privilege and waiver.

What I am asking is: Given that this is not a document that's been produced in this case, it does not have anything to do with Senate Bill 14, I don't think there is any purpose in including this in the record of this deposition or the case and I would ask that we withdraw this is an exhibit. If you like to ask Ms. Davis about the procedures that are discussed in this email, I have no objection to that but I cannot consent to the inclusion of this as an exhibit in this deposition.

MS. BERKOWER: And to be clear, that's on the basis of attorney-client privilege.

MR. FREDERICK: And legislative privilege.

MS. BERKOWER: So I understand the reason why you are insisting on the withdrawal of this exhibit on the basis of attorney-client privilege. Can you explain the -- your insistence on the withdrawal of this

privilege, so.

Q. (By Ms. Berkower) To your knowledge, just to flesh out the record a bit and I understand your position on this. Did Ms. Davis or Doug Davis -- and you guys are not related in any way?

A. Well, we are married.

Q. Oh, you're married. Okay. -- okay. Well, another type of privilege.

MR. FREDERICK: I will, yeah. We haven't talked about spousal privilege, yet.

MS. BERKOWER: I don't know we would need to in the context of this. Is he a doctor by any chance?

Okay. Did either of the Davises learn prior to today that this email had been disclosed?

MR. FREDERICK: I don't know.

I have not -- I have not spoken, specifically, to Ms. Davis or to Mr. Davis about their knowledge of whether it was disclosed.

MS. BERKOWER: Do you know if there was any effort made prior to today to get this -- I don't know what the right term for it is -- clawed back by the State, I guess.

MR. FREDERICK: I don't know.

MS. BERKOWER: So to the extent that

exhibit on the basis of legislative privilege?

MR. FREDERICK: What would -- sorry, what would you like to me to explain?

MS. BERKOWER: Well, do you feel this is in some way improperly produced on the basis of legislative privilege?

MR. FREDERICK: To the extent it is being produced in this case then, yes. We have asserted legislative privilege. This is subject to legislative privilege.

MS. BERKOWER: Well, it is not -- I mean, it is a trial exhibit used in a district court case in the District of D.C., so it is publicly available for review by anybody. So I am just trying to understand how -- I am not saying you can't. I am just trying to understand your theory of asserting legislative privilege over this document right now.

MR. FREDERICK: At this point, I am prepared to say only that we're asserting legislative and attorney-client privilege. I am not prepared to debate attorney-client or legislative privilege with this document. I am asserting our strong objection based on those privileges and the complete irrelevance of this document to its introduction in this deposition.

I -- I really don't understand why we are looking at a

document that was a document from the redistricting case, it just doesn't have anything to do with this case.

I am not objecting to you asking questions about the subject matter, but I --

MS. BERKOWER: Okay.

MR. FREDERICK: I cannot -- I cannot consent to this being disclosed in this case.

MS. BERKOWER: Okay. Well, I guess given that you feel that this is a privileged -- this is subject to privilege, I guess I will agree to withdraw it not -- reserving our right to try and re-introduce this at some other time when perhaps on some sort of motion or just in the future, but out of abundance of caution and given the direction we have received from the Court in this case to be conscious of these privileges, I will agree to that in this instance only. Is that acceptable to you?

MR. FREDERICK: Yes. And I appreciate it very much. I understand, and I recognize that you have arguments that you want to assert, I appreciate your consideration.

MS. BERKOWER: I think, though, based on what you said, I am still going to ask her about some of the subjects covered in the exhibit and you can object

- Q. To your knowledge, does the Senate consider the preclearance process when it is making legislation?
- A. I think, generally speaking, the Senate considers the preclearance process when it is considering certain voting bills.
 - Q. Do you remember the way in which the Senate considered preclearance during its consideration of SB 14?
 - A. I think, in general, the tenor of all of the debate in consideration on Senate Bill 14, I think it is clear by the public record that the members understood the bill would be subject to preclearance and that they took that seriously and went to great lengths to build a record for that eventual process.
 - Q. What pieces of the record do you think relate to that process?

MR. FREDERICK: Objection, vague.

- Q. Do you understand the question?
- A. I don't know that I can distinguish one part of the record versus another part.
- Q. Well, what did the senators do, in your view, that related to preclearance? And I am asking as a matter of the public record.
- A. I think they had a lot of discussions about the record. They submitted, especially, in the Committee of

as you see fit. Do you want it back?

MR. FREDERICK: No. When you say, "the subjects," does that mean you're going to discuss the actual text of that exhibit?

MS. BERKOWER: No. I am going to ask her about amendments and about preclearance and about her procedures relating to those things.

MR. FREDERICK: Yeah, subject to potential objections but, sure, I understand.

- Q. (By Ms. Berkower) Okay. Are you ready?
- A. Yes.
- Q. Do you know what "preclearance" is?
- A. More or less, yes.
- Q. What is your understanding of "preclearance"?
- A. My understanding is that bills involving an elections process, that certain states have to submit laws for preclearance either to the Department of Justice or through the District Court in DC before the bills can be implemented in Texas.
- Q. Are those bills relating to certain subject matters?
- A. Yes. And I should be specific, under the Voting Rights Act.
- Q. So are those election and voting related bills?
 - A. Voting related bills.

the Whole and I think, potentially, on the Senate floor, although can't remember very specifically whether in 2011, 2011 and 2009 how all this occurred. But members went to great lengths to submit lots of material for the record, letters, exhibits, in general, and especially in the Committee as a whole process, we were labeling items that were submitted by all the members with exhibit numbers which is not what the Senate would usually do when it is considering bills. So I think for me, as an employee in that process, it was clear to me that the members were building a record for preclearance or potential litigation.

- Q. Do you ever seek legal advice about preclearance?
 - A. I may have.
- Q. Have you ever sought preclear -- advice concerning preclearance in the contracts regarding the voter ID legislation?

MR. FREDERICK: I am going to object. On the basis of attorney-client privilege, to the extent any such communication occurred, that would be subject to privilege, so I am going to object.

MS. BERKOWER: The fact of the communication is subject to the privilege. I think I am trying to get at privilege log type questions here.

2.0

Q. (By Ms. Berkower) Did you seek legal advice about preclearance in the context of voter ID legislation seems to me like an entry on a privilege log.

MR. FREDERICK: I think the question requires the substance of the communication, so I stand by my objection.

I would instruct you not to answer on the basis of privilege.

Q. (By Ms. Berkower) Did you seek legal advice concerning preclearance in 2011?

MR. FREDERICK: To the extent that this is a yes or no question, you may answer; but don't reveal the substance of any communication between you and an attorney.

A. Yes.

Q. (By Ms. Berkower) Did you seek advice concerning preclearance in 2012, legal advice, sorry?

MR. FREDERICK: Going to object as vague.

Going to object to relevance. I don't understand why we are getting into attorney-client privilege, but that's clearly where this is going.

- A. I will take the advice of my counsel and not answer those questions.
- Q. Okay. Well, in terms of relevance, she would

- There is -- committee reports are prepared.
- Q. Are they prepared pursuant to any rules in the Senate, any of the Senate's rules?
 - A. For a committee report to be in order on a Senate Floor, it would have to comply with certain rules.
- Q. What are those rules?

MR. FREDERICK: Object to the form. You may answer.

- A. Generally, if I may refer to the rules.
- Q. (By Ms. Berkower) Yes.

A. Generally, it is Rule 712. And the Senate Rule 712 has a requirement on what printing a committee report should include and there is a number of things that may be required of bills depending on whether those items exist. And that's -- if there is other rules, there may be some indirect advice, I can't recall anything right now. But the most specific rule on committee reports is 712.

- Q. Are committees required to prepare committee reports in advance of the committee meeting under the rules?
- A. The way you characterize the question is a little misleading. I think there are components to a committee report that exist at various times and

still have to answer today. And I am not sure how, when I asked, "Did you seek legal advice in 2011 about preclearance," and then I asked the same question in 2012, how one would be an inappropriate question and one would be an appropriate question.

MR. FREDERICK: They are both inappropriate questions. I allowed the one because you were making an effort to make a general statement.

MS. BERKOWER: Okay.

MR. FREDERICK: As to yes or no, whether you sought legal advice about preclearance in 2012, you may answer yes or no. But beyond that, I will instruct you not to answer on the basis of privilege.

THE WITNESS: What was the last part of your advice, I am sorry?

MR. FREDERICK: You may answer yes or no as to the specific question whether or not you sought legal advice about a -- related to preclearance in 2012. Beyond that, you may not -- I am instructing you not to reveal the substance of any communication related to legal advice.

- A. Yes.
- Q. Are there any procedures in the Senate for preparing committee reports?
 - A. Can you be more specific with your question?

- different parts of the committee report are being worked on at different times. And it isn't an indication of whether the committee has actually taken action. Some things have to be prepared ahead of the committee's consideration. So there is not necessarily a sequential requirement.
 - Q. So you're saying that just as a logical matter, to be prepared for the meeting, the member might need to prepare part of the report ahead of time.

MR. FREDERICK: Object to the extent mischaracterizes the testimony.

A. Well, I think, for example, a committee cannot vote on a bill until it is in possession of the fiscal note. The LBB produces the fiscal note, has to have certain amount of time to produce that fiscal note and to analyze a bill. And it is very customary practice for the LBB to receive the request from the committee to work on a committee -- on the fiscal note before the bill sometimes is even set for hearing, maybe it has already been set, or they may ask at the time that they are setting. So parts of the committee report are produced, potentially, even before a Bill is set for hearing.

Q. Is an entire committee report prepared in its entirety ever before the committee meets?

Q. Okay. As a practical matter, though, have you

ever seen a senator capitalize on that to prevent a vote

A. "Capitalize." Do members choose to vote no or

on a particular piece of legislation?

- to commit to vote no to bring a certain -- to suspend the Regular Order of Business to take up a bill, yes, that's what they do, that's part of the calendar mechanism, that's why they would consider themselves to be part of the calendar process in the Senate.
- Q. How often does a bill that passes in the Senate die in the House, just generally?
- A. I would say -- I am not sure I could tell you percentages. I would say that, of the House bills that the Senate receives, the Senate passes half of their bills. And of the Senate bills that the House passes, they would pass fewer than half of the Senate bills they actually receive. How much fewer, I couldn't tell you the percentage but I know it is less.
- Q. How often does a bill die in the conference committee?
- committee?

 A. You know, I -- I am not sure if I could answer that. I mean, depends on the number of conference committees that we would have. It happens. We may, you know, in session to session basis, you could have -- generally you're in the 100 range on conference committees for a Regular Session, 100, 150, I mean, the number could vary. There are probably quite a few bills that die in conference committee, but there are certainly a lot more that survive.

- A. I think the legislative process requires senators to form a consensus on passing any bill.
- Q. Well, a few minutes ago, you were testifying about the two-thirds rule and you said that, a bill that's subjected to the two-thirds rule often will have more concessions made to opponents than other bills.

Do you remember testifying to that?

- A. Yes.
- Q. Would you agree then that the two-thirds bill often requires consent -- is a mechanism that enhances consensus built during the legislative process?
- A. I think that the difference and the number of votes required makes -- does make a difference. Needing 16 votes instead of 21 makes a difference. It is a five vote difference if everybody is there. And certainly if those five people are not willing to vote unless a concession is made or a change is made, might not even be a concession, I mean, it could be an improvement to the bill in some way, I -- you know. So, you know, I think it builds consensus, yes.
- Q. You said that one of the reasons senators may choose to suspend the two-thirds vote mechanism or two-thirds rule or tradition, however we have been referring to it, is that the majority may feel that failure to pass a particular type of legislation would

- Q. Is it fair to say that, as the bill gets further and further in the legislative process, it has less and less chance of dying?
 - A. I don't think I would characterize it that way.
 - Q. Is it fair to say that once a -- okay.

You testified a few minutes ago that 20 to 25 bills between the time -- during the time that you have been Parliamentarian were heard by the Committee of the Whole.

Do you remember testifying to that a few minutes ago?

A. I think --

MR. FREDERICK: Objection,

mischaracterizes the testimony.

- A. I hope I didn't misspeak. I think the question was: How many bills had been considered? Maybe we should have the court reporter read that question because I don't think it was related to the Committee of the Whole.
- Q. You know what, you're right, it was not. I withdraw that question. Sorry.

Would you agree that the -- part of the two-thirds, that the two-thirds rule requires senators to build consensus before a bill gets heard for a final vote?

harm the state.

Do you remember testifying to that a few minutes ago?

A. Yes.

- Q. Do you believe that opposition to bills harms the state?
- A. I think continued opposition to bills that are necessary to the functioning of the state, yes, ultimately harms the state.
- Q. What are examples of bills that are necessary to the functioning of the state?

MR. FREDERICK: Objection, vague.

- A. An example of that would be the state's general budget.
- Q. Do you believe that opposition to voter ID legislation was harm -- was a harm to the state?

 MR. FREDERICK: Objection, relevance.

 You may answer.
- A. I don't have an opinion on voter ID and the policy of voter ID. I think earlier I gave examples of why the Senate might choose to forgo its two-thirds tradition and to observe its calendar systems. And I gave examples of what they thought when they did this with voter ID is, you know, it was really a question for them. I don't -- I don't think I can answer that

You may answer. A. I don't know that I would characterize it as default. I think it chooses to impose, through its calendar mechanisms and its calendar systems, I think the Senate chooses to require a two-thirds vote on a lot of the legislation that it passes. Q. (By Ms. Berkower) The Senate makes its own rules each session, correct? A. Yes. Q. And under the rules in 2009 and 2011, which you have testified are substantially similar, is that accurate? A. Yes.	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	 Q. (By Ms. Berkower) You may answer. A. I think that the rules provide a calendar mechanism. As a general practice most legislative bodies have provisions for suspending the rules to take bills up out of order, the Texas Senate is no different, and that is what is contained in the Senate Rules, a regular calendar order, orders for the day, if you will, and a requirement within the rule that if that calendar is not followed then it requires a two-thirds vote to take a bill up out of the calendar order. Q. Would you agree that, to the extent that the 2009 and 2011 rules carve out specific types of legislation for which a two-thirds vote is not required but a majority vote is required to take business out of to take up bills out of the normal order of business, that that would be different from the rules for other bills? MR. FREDERICK: Objection, assumes facts not in evidence. A. I think that the rules provide that bills relating to voter ID requirements may be made a special order with a majority vote of the members of the Senate.
